Moreano World Medical Mission Inc. is a
501c(3) Charitable Organization; all donations are fully tax deductible.

One of Bayville’s own, Dr. Edwin Moreano, and his surgical team are about to embark on yet another Medical Mission trip. He will be joined by his wife Natalia and several other volunteers from the North Shore. Many of us know Edwin as our neighbor, who along with his wife, is very busy raising their children. Most have no idea of his selfless mission work. Dr. Moreano is the founder and Director of “Moreano World Medical Mission Inc.” which is a charity organization whose purpose is to provide pro-bono plastic and general surgery to underprivileged children in Latin and South America.
